Subject: Motivation Letter for Master's Program in High-Integrity Systems

Dear Admissions Committee,

I am writing to express my strong interest in re-enrolling in the Master's program in **High-Integrity Systems (HIS)** at **Frankfurt University of Applied Sciences**. I was previously accepted into the program in the last winter semester; however, due to unforeseen visa issues, I was unable to continue my studies. Now that my situation has been resolved, I am eager to resume my academic journey and contribute to the field of high-integrity system development.

I hold a **Bachelor's degree in Computer Science**, where I graduated with a **gold medal** and achieved **first position** in my final-year project. My project focused on **developing a high-performance, fault-tolerant system**, which sparked my interest in **high-integrity computing**. Furthermore, with **over three years of professional experience in software development**, I have gained extensive hands-on experience in designing and developing **reliable, secure, and fault-tolerant applications**.

My technical expertise includes **React.js, React Native, Node.js, and WebSockets**, as well as experience with **backend development, cloud computing, and system optimization**. Working in **safety-critical environments** has given me insight into the significance of **robust software engineering principles**, which align perfectly with the objectives of the HIS program.

I am particularly drawn to this program because of its strong focus on **formal methods, safety-critical software development, and real-time systems**. The opportunity to learn from esteemed faculty members and collaborate with like-minded peers excites me. I believe that my **academic excellence, professional experience, and passion for high-integrity systems** make me a strong candidate for this program.

I am fully committed to resuming my studies and ensuring my successful completion of the program. I would greatly appreciate the opportunity to discuss my application further and demonstrate my dedication to this field. Thank you for your time and consideration.

Best regards,
Azeem Sarwar
