Hiring Manager

Koppla

Berlin, Germany

Subject: Application for Frontend Developer Role

Dear Hiring Manager,

About Me:

I am a results-driven Fullstack Developer with over 4 years of experience specializing in **React.js** and **React Native**. My expertise lies in developing high-performance, cross-platform applications, optimizing UI/UX, and implementing efficient state management. I am highly skilled in **Redux Toolkit**, **GraphQL**, **Firebase**, **Jest**, and **Detox** and have a strong background in improving app performance, reducing load times, and enhancing scalability. Passionate about writing clean, maintainable code, I constantly strive to drive engineering best practices and build robust applications.

Why Me?

Throughout my career, I have successfully led the development of multiple web and mobile applications, improving performance and user experience significantly. My hands-on experience with **Gantt Charts** and **Kanban Boards** has allowed me to design efficient project timelines and task management systems. At Mid-Chain Technologies, I played a pivotal role in optimizing API calls using **GraphQL** and **React Query**, reducing data-fetching latency by 30%. Additionally, my expertise in testing frameworks like Jest and Detox ensures the delivery of high-quality, bug-free applications.

Why This Job?

Koppla's mission to revolutionize scheduling in the construction industry with intuitive and data-driven solutions resonates deeply with my passion for creating impactful software products. The opportunity to work in a fast-growing B2B SaaS company excites me, as I thrive in dynamic and collaborative environments. I am eager to contribute my frontend development expertise, problem-solving skills, and passion for innovation to help drive Koppla's vision forward.

I would love the opportunity to discuss how my experience and skills align with your team's needs. Thank you for considering my application. I look forward to hearing from you.

Best regards,

Azeem Sarwar
